

SEHION GROUP

Building dreams, One brick at a time

Engineered Concrete Blocks Production

Why Us

- We are the pioneer to bring Columbia Vibration Technology(CVT) to Mysore.
- Every piece of our product is manufactured, tested, maintained and exported by Engineers.
- We cure every piece of our product naturally associated with Humidifier technology & no admixtures are used.

One Stop Solution for All Your Concrete Needs

S

• **SEHION GROUP**

• "Building dreams, one brick at a time"

S

• **SRI SRIKANTESHWARA STONE
CRUSHING INDUSTRIES**

• "Built on trust, focused on quality"

C

• **GRIS INDUSTRIES**

Excellent Quality of **READY MIX CONCRETE**

• "Excellence in every structure"

Machinery and Technology

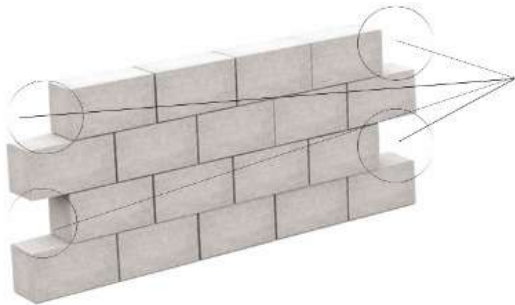

We are the pioneer to bring American made Columbia machine to Mysore Which uses unique technology called COLUMBIA VIBRATION TECHNOLOGY (CVT) to produce high dense and high strength concrete products.

Advantages of CVT

-  **UNIFORM DENSITY**
-  **PRECISE HEIGHT CONTROL**
-  **UNIQUE TEXTURE**
-  **HIGHER STRENGTH**

Half & Quarter Block

At this point masons needs to cut the full size block to half/quarter to fill the gap which may occur in the column wall junction or between new wall to old wall.

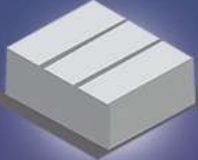

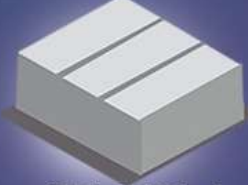

So to avoid the wastage **SEHION GROUP** has introduced

-  **4", 6" & 8" Half Block(Length 8")**
-  **6" & 8" Quarter Block(Length 4")**

Advantage of using Half and Quarter Blocks

-  **Time Reduction**
-  **~ 0% Wastage**
-  **Cost Saving**

Our Products

-  **4" Solid Block**
Size: 400x100x200 mm
Weight: 16.4 - 16.8 kg
Density: 2050 - 2100 Kg/m³
Strength: 8.83 Mpa
Water Absorption: 3.69%
-  **6" Solid Block**
Size: 400x150x200 mm
Weight: 24.6 - 25.2 kg
Density: 2050 - 2100 Kg/m³
Strength: 8.78 Mpa
Water Absorption: 3.11%
-  **8" Solid Block**
Size: 400x200x200 mm
Weight: 32.8 - 33.6 Kg
Density: 2050 - 2100 Kg/m³
Strength: 6.91 Mpa
Water Absorption: 3.05%
-  **4", 6" & 8" Half Block(Length 8")**
-  **6" & 8" Quarter Block(Length 4")**
-  **Uni-Stone Paver**
Size: 225x112.5x80 mm
Strength: 51.26Mpa
-  **Kerb Stone**
Size: 450x400x150 mm

* Strength mentioned are 7th day strength * All products are tested at NIE - CRC
